PSYCHOLOGICAL ABSTRACTS

VOLUME 73, SUBJECT INDEX II

JANUARY-DECEMBER 1986

Why can't they publish an abstract service tailored to my professional interests to save me time and effort?

They have.

It's the American Psychological Association's **PsycSCAN**, a series of inexpensive, subject-oriented publications with abstracts of the primary literature *in applied, clinical, and developmental psychology and in learning disorders and mental retardation (LD/MR).* PsycSCANs provide an overview of these fields so you can keep pace with new information and identify articles for further research—quickly and easily.

Each PsycSCAN publication covers one of the four areas, is issued quarterly (about 75 pages), and includes full bibliographic information. You get more than 1,500 abstracts in a one-year period in the discipline of your choice.

For LD/MR, abstracts are selected from the PsycINFO database taken from over 1,000 journals. The applied, developmental, and clinical PsycSCANs abstract *subscriber-selected* APA and non-APA journals. Every article in these journals will be abstracted and published in PsycSCAN. You'll vote for changes annually *as your professional needs change.*

Call or write for your sample copy today.

Each 4-issue PsycSCAN subscription: $12.50 APA members affiliates, $25 nonmembers, $28 non-US nonmembers. **American Psychological Association**, 1400 N. Uhle St., Arlington, VA 22201. Toll Free (800) 336-4980.
